Santiago Bugnón

Full Stack Developer

Email: santiago_bugnon@hotmail.com

Website: portfolio.squad.net.ar

I am a Full Stack Developer with a strong foundation in the latest development tools and methodologies, complemented by extensive self-taught expertise. I excel in managing independent projects efficiently, while also demonstrating excellent collaboration skills within high-performing teams to deliver results in dynamic environments.

Experience

Full Stack Developer

Creadores de Sitios, 2019 - 2020

- I was responsible for creating and maintaining dynamic web applications using HTML, PHP, JavaScript, and MySQL. I worked extensively on content management systems (CMS) and e-commerce platforms, ensuring efficient functionality and seamless user experiences across a range of projects.

Education

Universidad Nacional del Centro de la Provincia de Buenos Aires (UNICEN)

Tecnicatura Universitaria en Desarrollo de Aplicaciones Informaticas (TUDAI)

Projects

University Study Group Finder App

- I led the development of squad.net.ar, a PWA web app designed to help students create and find study groups. This personal project focused on improving student collaboration by offering a platform for group creation, chat, and resource sharing.

Skills

- **HTML5, CSS, JavaScript, TypeScript**
- **React JS, React Native, TailwindCSS**
- **MySQL, PostgreSQL, MongoDB**
- **PHP, Laravel**
- **Git, Docker, Linux, Proxmox**
- **Agile/Scrum, UI/UX Design**
